### **DETAILED ACTION**

#### ***Allowable Subject Matter***

1. The following is a statement of reasons for the indication of allowable subject matter: Claim 1 is allowable over the art of record because the prior art does not teach wherein the wave antennas are disposed in an array configuration, the array configuration having a peripheral shape formed by distal portions of the first and second dielectric taper portions, the peripheral shape being lens-shaped, and in combination with the remaining claimed limitations.
2. Claims 12 and 20 are allowable over the art of record because the prior art does not teach wherein the central dielectric portions have a length, the length being variable among individual wave antennas, the array exhibiting a lens-shaped periphery by virtue of the variable length, and in combination with the remaining claimed limitations.

#### ***Conclusion***
